

# FREEZING WEATHER TIPS

To prevent damage during cold weather, please follow these guidelines:

- Allow faucets to drip with cold water.
  - Cover outdoor spigots to protect them from freezing.
    - Disconnect all outdoor water hoses.
  - Keep all garage doors closed to maintain indoor warmth.
  - Consider placing hay or cedar shavings over the meter box for insulation.
  - Ensure that any exposed pipes are covered, or use approved heat tape for protection.
  - **\*\*Important:\*\*** **Do not** set any fires in or around the meter box.
